1 General information about “Samruk-Energy” JSC and its operations

These financial statements for three months ended 31 March 2020 were prepared in accordance with International Financial Reporting Standards (IFRS) for “Samruk-Energy” JSC (hereinafter – the Company).

The Company was established on 18 April 2007 and registered on 10 May 2007. The Company is a joint stock company set up in accordance with legislation of the Republic of Kazakhstan.

The Company’s sole shareholder is Samruk-Kazyna Sovereign Wealth Fund JSC (“Samruk-Kazyna”), which holds 100% shares of the Company. The Company’s ultimate controlling party is the Government of the Republic of Kazakhstan.

Principal activity

The Company is a holding company (the “Company”), including a number of companies (Note 7), which is engaged in production of electricity, heat and hot water using coal, hydrocarbons and water resources, and sale to households and industrial enterprises, transmission of electricity and technical distribution of electricity within the network, construction of hydro and thermal power plants, and lease of hydro power plants’ property.

Registered address and the place of business of the Company

The Republic of Kazakhstan, Nur-Sultan c., 15 A, Kabanbay Batyr ave.

Presentation currency

Unless otherwise stated, the figures in these financial statements are presented in Kazakhstan tenge (“tenge”).

2 Basis of Preparation of financial statements and Significant Accounting Policies

Basis of preparation of financial statements

These separate condensed interim financial statements for three months ended 31 March 2020 were prepared in accordance with International Financial Reporting Standards (IFRS) 34 “Interim financial statements”, using the historical cost convention, as adjusted for initial recognition of financial instruments at fair value. These separate condensed interim financial statements are subject to familiarization together with the Company’s annual separate financial statements as of 31 December 2019 prepared in accordance with IFRS. The accounting policies used in the preparation of this condensed separate interim financial report are consistent with those accounting policies that were applied in the previous separate financial statements.

The Company has prepared these separate financial statements for management.

Moreover, the Company has prepared consolidated financial statements in accordance with IFRS for the Company and its subsidiaries (the “Group”). In the consolidated financial statements, transactions of subsidiaries identified as companies in which the Group directly or indirectly holds more than half of the voting shares or in respect of which the Company is otherwise able to control their financial and operating policies, are fully consolidated. The consolidated financial statements of the Group can be obtained at the Company’s office located at the following address: 15A, Kabanbay batyr avenue, the Republic of Kazakhstan, Nur-Sultan c.

Users should get familiar with these separate condensed interim financial statements together with the condensed consolidated interim financial statements as of and for the period ended December 31, 2019 in order to obtain complete information about the financial position, operating results and changes in the Company’s financial standing in general.

The preparation of financial statements in accordance with IFRS requires the use of estimates and assumptions. In addition, management must rely on its judgment in applying the Company’s accounting policies. The areas of accounting that involve a higher degree of measurement or complexity, and the areas in which assumptions and estimates are material to the individual financial statements, are disclosed in the Note. Actual results may differ from these estimates.

2 Basis of Preparation of financial statements and Significant Accounting Policies (continued)

Exchange rates

As of March 31, 2020, the official exchange rate, which is used to translate balances in foreign currencies, was 447,67 tenge per 1 US dollar (December 31, 2019: 381,18 tenge per 1 US dollar).

Currently, tenge is not a freely convertible currency outside the Republic of Kazakhstan.

3 New accounting policies

New standards and interpretations

A number of new standards and interpretations have been published, which are mandatory for annual periods beginning on or after January 1, 2020, which the Group has not adopted in advance.

Amendments to IFRS 10 and IAS 28 - “The sale or contribution of assets between an investor and its associate or joint venture” (issued on September 11, 2014 and effective for annual periods starting on the date, which will be determined by the IASB, or after this date). These amendments eliminate inconsistencies between the requirements of IFRS 10 and IAS 28 regarding the sale or contribution of assets to an associate or joint venture by an investor. The main implication of the amendments is that profit or loss is recognized in full if the transaction concerns a business. If assets do not represent a business, even if a subsidiary owns these assets, only part of the profit or loss is recognized.

IFRS 17 “Insurance Contracts” (issued on May 18, 2017 and effective for annual periods starting on or after 1 January 2021) (continued)

According to this standard, insurance contract groups should be recognized and measured at the total of (i) present value of future cash flows (fulfillment cash flows), risk-adjusted, which considers all available information about fulfillment cash flows that complies with observed market information to which (ii) the amount of retained earnings for a group of contracts (service margin) is added (if the value is an obligation) or from which it is deducted (if the value is an asset). Insurers will present the company's profit from insurance contracts for the period during which they provide insurance coverage and at the time of the release from risk. If the group of contracts is or becomes unprofitable, an entity shall recognize the loss immediately.

Revisions to Conceptual Framework for Financial Reporting (issued on March 29, 2018 and effective for annual periods starting on or after 1 January 2020). The conceptual framework for financial reporting in the new edition includes a new chapter on measurement, guidance on reporting financial performance, improved definitions and recommendations (in particular, definition of liability) and clarifications in important areas, such as the role of management, prudence and measurement uncertainty in financial reporting.

Definition of a Business - Amendments to IFRS 3 (issued on October 22, 2018 and applicable to acquisitions from the beginning of the annual reporting period starting on January 1, 2020, or after this date). These amendments introduces changes to the definition of a business. Business comprises input and substantial processes that together contribute to the ability to create outputs.

The new guidance includes a system that allows determining the availability of contribution and a significant process, including for companies that are in their early stages of development, that have not yet received a return. If there is no output, an organized workforce must be in place in order for an entity to be considered a business. The definition of the term “output” is narrowed in order to focus attention on goods and services provided to customers, to create investment income and other income, while removing the reference to an ability to reduce costs and other economic benefits. Moreover, it is no longer necessary to assess whether market participants are capable of replacing any missing elements or integrate acquired activities and assets. An entity may apply a “concentration test”. Acquired assets will not be considered a business if almost the entire fair value of acquired gross assets is concentrated in one asset (or a group of similar assets).

Definition of materiality - Amendments to IAS 1 and IAS 8 (issued on October 31, 2018 and valid for annual periods starting on January 1, 2020 or after this date). These amendments clarify the definition of materiality and the application of this concept by including recommendations on the definition that were previously presented in other IFRS standards. Moreover, clarifications to this definition have been improved. The amendments also provide a consistent use of the materiality definition in all IFRS standards.

Information is considered material if omitting, misstating or obscuring it could reasonably expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements which provide financial information about a specific reporting entity..

4 Important accounting estimates and professional judgments in applying accounting policies

While preparing the condensed separate interim financial statements, the Company uses estimates and makes assumptions that affect the applicable accounting policies and reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

Applied critical accounting estimates and judgments correspond to the accounting estimates and judgments applied in the preparation of the annual separate financial statements for the year ended 31 December 2019.

Going concern principle

Management has prepared these condensed separate interim financial statements on a going concern basis. Management decision is based on the financial position of the Company, its current intentions, profitability of operations and access to financial resources. As of 31 March 2020 total current liabilities of the Company exceeded total current assets by 1,314, 403 thousand tenge.

The following factors were considered when assessing the ability of Samruk-Energy to continue its operations in the foreseeable future:

- The company and its subsidiaries are of strategic importance for ensuring the reliability of Kazakhstan's energy system. The management and shareholders of the Company have neither the intention nor the need to liquidate the Company.
- The Company's current liabilities of KZT 36,115,303 thousand represent debt to subsidiaries of the Company associated with financial aid obtained and services provided.
- As of March 31, 2020, the Company has available funds under revolving credit lines from “Halyk Bank of Kazakhstan” JSC for the total amount of 50,000,000 thousand tenge and “Sberbank of Russia” JSC SB for the total amount 8,200,000 thousand tenge.

These separate financial statements do not include any adjustments to the carrying amounts of assets and liabilities, income and expenses, and classification of the statement of financial position that would be required if it is not possible to continue operating activities, such adjustments may be significant.

Balkhash TPP

14 On February 14, 2012, the Company and Samsung C & T entered into an "Option Agreement for shares of “Balkhash TPP” JSC (“Option Agreement”), according to which Samsung C & T shall be entitled to exercise the put option in the event that the relevant conditions of the Options Agreement are not met.

On August 31, 2016, Samsung C&T sent a notice on the enforcement of the Option for the sale of shares in accordance with the Option Agreement due to the lack of an agreed version of the support and financing package for the construction of BTTP.

The Company concluded that the above events indicate the impairment of the Company's investments in BTTP in accordance with IAS 36 Impairment of Assets. Accordingly, at December 31, 2017, investments in BTTP were completely impaired.

On November 16, 2018, a settlement agreement was entered into with Samsung C & T. According to this settlement agreement, the Kazakhstani side, the Government and Samruk-Energy jointly assumed the obligation to pay an agreed to Samsung C & T by November 30, 2019. Once the payment is received, Samsung C & T will transfer 50% + 1 share of BTTP to Samruk-Energy. In this regard, as at 31 December 2018, the Company recognized the provision for the full amount of the liability. The government took the decision on providing the Company with the funding required to repay obligations to Samsung C & T. Since it is assumed that the expenses required to repay the obligation to Samsung C & T will be fully reimbursed, in accordance with IAS 37, as at 31 December 2018, reimbursement amount is recognized as a separate asset in the same amount as the provision. The corresponding loss on recognition of the liability and gain on recognition of the asset were offset in profit or loss under IAS 37.

The management believes that the potential voting right associated with the future transfer of shares under the settlement agreement is unreal, and as of 31 December 2018 the Group does not control BTTP. Accordingly, as of 31 December 2018, BTTP is still accounted for using the equity method.

On October 29, 2019, the Company received a refund and paid the amount of the obligation of Samsung C&T and received 50% + 1 share of BTTP. The Company's management believes that as a result of the acquisition of an equity stake in BTTP, the Company does not have a legal obligation to lenders and suppliers of BTTP.

4 Important accounting estimates and professional judgments in applying accounting policies (continued)

At the time of the Company's acquisition of a 100% stake, BTPP was about to go bankrupt and did not actually conduct significant operations. Since 2017, lenders and suppliers have repeatedly applied to the court due to the insolvency of BTPP, which in turn led to the seizure of property, and also significantly limited BTPP operations. On December 6, 2019, a temporary manager was appointed by the court in order to supervise and conduct the bankruptcy process.

Thus, in the opinion of the Company's management, the fair value of BTPP net assets is equal to zero.

Agreement on assignment of rights to a loan between the Company, “Vnesheconombank”, “Eurasian Development Bank” and EGRES-2

In 2019, as part of the deal on acquisition of a 50% equity stake in EGRES-2 from “Inter RAO” UES” by SWF “Samruk-Kazyna”, an agreement on the transfer of debt between “Vnesheconombank” and the Eurasian Development Bank (as initial lenders), Eurasian Development Banks (as Facility Agent), “Samruk-Energy” JSC (as the Buyer) and EGRES-2 (as the Borrower) was signed; the agreement provides for Vnesheconombank's assignment of its right of claim under the loan agreement in favor of “Samruk-Energy” JSC.

According to the agreement on the assignment of debt d/d December 9, 2019, “Samruk-Energy” JSC must buy the loan in rubles from “Vnesheconombank” no later than June 21, 2021, or 60 days after the date of receipt of the notification of the default event, whichever is earlier.

The Company's management believes that default events did not take place on December 31, 2019.

After the repurchase of the debt, the rights to claim this debt pass from Vnesheconombank to “Samruk-Energy” JSC and the currency of the loan should change from rubles to tenge. Change of the loan currency, according to the terms of the Loan Agreement d/d June 23, 2010, involves a corresponding change in the initial interest rate in rubles to the interest rate in tenge.

Agreement on assignment of rights to a loan between the Company, “Vnesheconombank”, “Eurasian Development Bank” and EGRES-2 (continued)

This deal meets the criteria of a derivative financial instrument, as:

- (i) its value changes as a result of a change in the price of a financial instrument or exchange rate;
- (ii) an initial net investment is not required for its acquisition or a relatively small initial net investment is required in comparison with other types of contracts that are expected to respond similarly to changes in market factors;
- (iii) it will be settled at some future date

Accordingly, the management of the Company calculated the fair value of the consideration payable and compared it with the fair value of the current loan under the terms of the original contract. As a result of this analysis, the management of the Company concluded that the fair value of this derivative financial instrument is insignificant at the reporting date and, accordingly, did not recognize the asset or liability.

The fair value of the consideration payable and the loan under the original contract was set based on the future cash flows presented at the reporting date, taking into account forecast data on inflation in the Republic of Kazakhstan and the Russian Federation, the Central Bank of Russia refinancing rate, currency exchange rates, as well as market loan rates issued by companies with similar credit ratings on similar terms.

5 Settlements and Transactions with related parties

Related parties are defined in IAS 24, Related Party Disclosures. Parties are generally considered to be related if one party has the ability to control the other party, is under common control, or can exercise significant influence or joint control over the other party in making financial and operational decisions. In considering each possible related party relationship, attention is directed to the substance of the relationship, not merely the legal form. The Company's parent entity and ultimate controlling party are disclosed in Note 1.

The related parties include the companies under control of Samruk-Kazyna. The Kazakhstani state has significant influence over the Company. The Company decided to apply the exemption from disclosure of individually insignificant transactions and balances with the government and parties that are related to the entity because the Kazakhstan state has control, joint control or significant influence over such party.

The Company purchases from and sells goods to a large number of government related entities.

Such purchases and sales are individually insignificant and are generally entered into on an arm's length basis.

“SAMRUK-ENERGY” JSC
Notes to the separate interim financial statement – 31 March 2020

Accounts receivable

Other accounts receivable mainly include the short-term portion of the debt in the amount of 10.104.599 thousand tenge of customers of subsidiaries that were sold during 2017, as well as receivables of “Tauba Invest” LLP in the amount of 930.167 thousand tenge. “Tauba Invest” LLP receivables are secured by the real estate pledge agreement dated April 26, 2018. In the reporting period, “Tauba Invest” LLP repaid the debt of 108.558 thousand tenge. As at March 31, 2020, other receivables are not impaired or past due and are fully denominated in tenge.

Asset held in favor of Shareholder

As instructed by the Shareholder, the Company assumed a commitment for the construction of a kindergarten in Nur-Sultan city. The company recognized the liability for the estimated construction cost of 1,184,095 thousand tenge as other distributions in favor of the shareholder. The Company recognized the expenses incurred in connection with the construction of a kindergarten as current assets intended for the benefit of the Shareholder. In accordance with donation agreement No. 56 dated August 28, 2019, the Company transferred a part of the Asset - a kindergarten building with technical equipment and boiler equipment for a total amount of 820,524 thousand tenge to the State Institution “Assets and State Procurement Administration of Nur-Sultan city” SE. According to clause 11 of IFRIC 17 “Distribution of non-monetary assets to owners”, the Company must evaluate the obligation to distribute non-monetary assets as a dividend in favor of its owners at the fair value of the assets distributed.

9 Other current assets (continued)

The Company's management believes that the assessment of the fair value of the kindergarten is equal to its carrying value since neither the Company nor its Sole Shareholder derive any economic benefit from this deal, and it was made solely at the request of the ultimate shareholder - the Government of the Republic of Kazakhstan. Involvement in social projects is a common practice among the group of companies of a Shareholder. Moreover, the Company did not participate in the planning and construction of the kindergarten, but only allocated the necessary funds for its construction, and the transfer of the asset at a book value below fair value does not negatively affect the interests of any other shareholders due to the fact that the Company has only one Shareholder. In 2019, the Company transferred a part of the Asset - a kindergarten building with technical equipment and boiler equipment for a total amount of 820,524 thousand tenge to the State Institution “Assets and State Procurement Administration of Nur-Sultan city”. The transfer of the remaining part of the Asset - a transformer substation and engineering networks to Nur-Sultan city Mayor's Office with a total value of 363,571 thousand tenge is planned in the first half of 2020.

Samruk-Kazyna

On 17 March 2010 the Company signed a loan agreement with Samruk-Kazyna for amount of Tenge 48,200,000 thousand for the purpose of re-financing of debt arising as the result of acquisition of 50% interest in Forum Muider. The loan carries an interest rate of 1.2% per annum with maturity not later than 15 September 2029. The principal amount is payable in equal annual instalments and interest is payable by semi-annual payments starting from the following reporting year after the receipt of loan.

On 14 January 2011 the Company signed a loan agreement with Samruk-Kazyna for amount of Tenge 7,000,000 thousand for the purpose of financing construction of substation of Alatau Zharyk Company JSC. The interest rate is 2% per annum, the maturity is 25 January 2024. The principal amount is payable at maturity and interest is payable by semi-annual payments.

On 16 January 2014 the Company signed a loan agreement with Samruk-Kazyna for amount of Tenge 200,000,000 thousand for the purpose of acquisition of remaining share in EGRES-1. The principal amount is payable on 1 December 2028 and interest at 7.8% is payable by semi-annual payments.

12 Borrowings (continued)

On 3 October 2014 the loan agreement was substantially modified pursuant to addendum No. 1 to loan agreement No. 369 as follows:

- Principal amount Tenge 100,000,000 thousand was extinguished as a contribution to share capital;
- Interest rate on the remaining principal amount was increased to 9%

On 25 December 2015 the loan agreement was significantly amended in accordance with the addendum No.2 to credit agreement No.369-I, the interest rate on the principal amount was reduced to 1% per annum. Management estimates that the reduction of the interest rate to a non-market rate of 1% and the change of the priority of a loan to a subordinated one represent a significant modification in the loan terms. Management believes that such change in the conditions of the loan should be considered as a settlement of the original loan and recognition of a new loan at a fair value. At the loan origination date, the market rate was 12.8% per annum. The Company recognised a gain on initial recognition of the loan of Tenge 72,581,903 thousand as part of other reserves. Management believes that by providing a loan at the below-market rate, Samruk-Kazyna acted as a shareholder. Gain on initial recognition of the loan was recorded as the difference between the nominal value and fair value at the recognition date, calculated using the discounted cash flow method at the effective rate of 12.8% per annum.

European Bank for Reconstruction and Development

In December 2016 the Company opened a non-revolving line of credit for 100 million Euros to refinance Eurobonds. In September 2019 the Group received two tranches for amount of 39,114,450 thousand tenge within this line of credit. The interest rate is set on the basis of an independent indicative rate of provision of credit All-in-cost, the calculation of which is based on inflation plus margin of 3.5% and 4.5% per annum. Changes in the independent indicative rate are recorded on a quarterly basis. Principal debt is payable twice a year and at the end of the term. In 2019, the Company early repaid the second tranche under the loan from the EBRD in the amount of 10,354,871 thousand tenge.

Asian Development Bank

On November 8 and December 5, 2018, the Company opened non-revolving credit lines in the amount of 120 million USD in the Asian Development Bank to increase the operating efficiency of core activities and identify opportunities related to renewable energy sources. In 2019, the Company received three tranches under the Credit lines for a total amount of 45,860,800 thousand tenge with maturity for tranches A & B after 5 years, for tranche C – after 7 years. The interest rate is set on the basis of actual inflation rates of the Republic of Kazakhstan, plus the bank margin. Principal debt is payable at the end of the loan term.

Bonds

In August and September 2017 the Company issued and placed bonds for a total of Tenge 20,000,000 thousand and Tenge 28,000,000 thousand, respectively, with a nominal value of Tenge 1000 per bond with a five-year term. The coupon rate was 13% per annum and 12.5% per annum, respectively, and is payable twice a year and on a quarterly basis, respectively. On February 18, 2019, the Company conducted a repurchase of the bonds of the second tranche in the amount of 28,000,000 thousand tenge. In April 2019, the Company repurchased 16,872,498 bonds of the first tranche at a market price of KZT 17,655,846 thousand. As of December 31, 2019, the balance of principal for the first tranche is 3,127,502 thousand tenge.

In November 2018 the Company issued and placed bonds for a total of Tenge 21,736,200 thousand, with a nominal value of Tenge 1000 per bond with a seven-year term. The coupon rate was 11.2% per annum and is payable twice a year.

“Halyk Bank of Kazakhstan” JSC

In August 2017 the Company opened a non-revolving credit facility for Tenge 40,000,000 thousand to refinance Eurobonds and for other corporate purposes. The interest rate is 14.2% per annum and is payable quarterly. The principal is payable twice a year. The loan balance as of December 31, 2019 is 1,900,000 thousand tenge. In the first quarter of 2020 the Company received 3 short-term tranches for 2,000,000 thousand tenge and repaid loans for 3,900,000 thousand tenge. As of 31 March 2020, there is no indebtedness with regard to loans.

“SAMRUK-ENERGY” JSC
Notes to the separate interim financial statement – 31 March 2020

12 Borrowings (continued)

“Sberbank” SB JSC

In the first quarter of 2020, “Samruk-Energy” JSC received 6 short-term tranches under a revolving credit line for a total amount of 13,100,000 thousand tenge with SB Sberbank JSC for a period of 1 month at 9,8% interest rate, of which 11,300,000 thousand tenge were repaid ahead of schedule during the reporting period. As of March 31, 2020, the outstanding debt under principal to SB “Sberbank” JSC is KZT 5,800,000 thousand, the interest rate of which is 10,5% per annum.

18 Income tax

Income tax is a tax withheld at the source of payments on deposits. The Company is not expecting taxable profits in the future.

19 Contingencies, Commitments and Operating Risks

In addition to the information indicated below, as of March 31, 2020, there were no contingencies and commitments and operating risks other than those disclosed in the separate financial statements for the year ended December 31, 2019.

Litigation. The company is involved in certain other legal processes arising in the ordinary course of business. Management is of the opinion that no other current legal proceedings or other outstanding claims which may result in significant adverse impact on the Company's financial position.

Loan covenants. The Company has certain covenants on loans and bonds. Failure to comply with these covenants may result in negative consequences for the Company, including the growth of borrowing costs and the announcement of a default. As of 31 March 2020, the Company complied with the regulatory values of the loan covenants.

Long-term financial guarantees. At 31 December 2019 the Company has guarantees issued in relation to the loans “Shardarinsk HPP” JSC. Fair value of guarantees at initial recognition was determined as the amount resulted from application to the guaranteed amount of interest rates, being the difference the interest rate at which the borrower obtained a loan secured by the Company, and the interest rate that would be applied if the Company had not issued a guarantee. The cost of guarantees is deemed as an investment in a subsidiary.

20 Fair value of financial instruments

Fair value measurement

Fair value measurements are analysed by level in the fair value hierarchy as follows: (i) level one are measurements at quoted prices (unadjusted) in active markets for identical assets or liabilities, (ii) level two measurements are valuations techniques with all material inputs observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices), and (iii) level three measurements are valuations not based on observable market data (that is, unobservable inputs). Management applies judgement in categorising financial instruments using the fair value hierarchy. If a fair value measurement uses observable inputs that require significant adjustment, that measurement is a Level 3 measurement. The significance of a valuation input is assessed against the fair value measurement in its entirety.

Fair value measurement at Level 2 and Level 3 of the fair value hierarchy was performed using the discounted cash flow model. The fair value of financial instruments with a floating interest rate that do not have quoted prices in an active market was assumed to be equal to the carrying amount. The fair value of fixed interest rate instruments that do not have quoted prices in an active market is based on a discounted cash flow model using current interest rates in the borrowing market for new instruments with similar credit risk and maturity.

“SAMRUK-ENERGY” JSC
Notes to the separate interim financial statement – 31 March 2020

Financial assets carried at amortised cost. The fair value of floating rate instruments approximates their carrying amount. The estimated fair value of fixed interest rate instruments is based on estimated future cash flows expected to be received discounted at current interest rates for new instruments with similar credit risks and remaining maturities. Discount rates used depend on the credit risk of the counterparty.

Liabilities carried at amortised cost. The fair value of Eurobonds is based on quoted market prices. Fair values of other liabilities were determined using valuation techniques. The estimated fair value of fixed interest rate instruments with stated maturities were estimated based on expected cash flows discounted at current interest rates for new instruments with similar credit risks and remaining maturities.

21 Events after reporting date

In April 2020, “Samruk-Energy” JSC paid interest in the amount of 643,815 thousand tenge under the Credit Agreement No. 48308 d/d December 9, 2016 with the European Bank for Reconstruction and Development.

During April 2020, “Samruk-Energy” JSC paid loan fees under the Credit Line Agreements with Asian Development Bank in the following order: with regard to credit line A (Agreement dated 05.12.2018) payment in the amount of 553,800 thousand tenge, with respect to credit line B (Agreement dated 08.11.2018) payment in the amount of 528,876 thousand tenge; with respect to credit line C (Agreement dated 08.11.2018) payment in the amount of 567,770 thousand tenge.

22 Earning/ (loss) per share

Basic earnings/(loss) per share are calculated by dividing the profit or loss attributable to owners of the Company by the weighted average number of ordinary shares in issue during the year. The Company has no dilutive potential ordinary shares; therefore, the diluted earnings per share equals the basic earnings per share.

	3 months ended 31 March 2020	3 months ended 31 March 2020
Earning per year attributable to the Company Shareholders (in thousands of Kazakhstani Tenge)	25,268,719	(4,923,429)
Weighted average number of ordinary shares in issue	5,601,687	5,601,687
Earning per year attributable to the Company Shareholders (rounded to tenge)	4,511	(879)

23 Carrying value of one share

In line with the decision of the Exchange Council of “Kazakhstan Stock Exchange” JSC (KASE) dated October 4, 2010, the financial statements must include information about carrying value of one share (simple and preferred) at the reporting date calculated in accordance with the rules approved by KASE. As at March 31, 2020, this indicator, calculated by the management of the Company using the data of financial statements, amounted to Tenge 77,610 tenge (December 31, 2019: 73,094 tenge). Below table shows the calculation of the carrying value of one share::

<i>In thousands of Kazakhstani tenge</i>	31 March 2020	31 December 2019
Total assets	645,806,954	622,001,515
Less: intangible assets	(740,484)	(763,873)
Less: total liabilities	(210 321 854)	(211,785,133)
Net assets for ordinary shares	434,744,616	409,452,509
Number of ordinary shares as at the end of the reporting period	5,601,687	5,601,687
Carrying value of one share, tenge	77,610	73,094
